Sam Menard, Dedham Health Director

I. Preparation for Upcoming Community Presentation

Coalition members discussed the ongoing dissemination and utilization of the recent Community Health Assessment (CHA) report, noting how member municipalities are leveraging the data to support local initiatives and stakeholder advocacy.

In preparation for the upcoming community presentation, scheduled for October 14th, the group discussed outreach and promotion plans to ensure the event is well-attended. Coalition members will invite key stakeholders, community members, and individuals who participated in the focus groups and interviews during the CHA project.

Group members discussed the structure and plans for the presentation itself, aligning on priority topics to cover and the approach to presenting key findings. The group also discussed plans for the prioritization exercise, which will provide community members an opportunity to provide input and feedback on the topics shared.

Finally, members discussed how the gathered community feedback will directly inform the coalition's future programming and individual town planning and initiatives.

The meeting adjourned at 2:00 PM.
